

**Search Associates Hong Kong-January Recruitment Fair**  
**22-24th January 2010**  
**General Information**

The Hong Kong-January Fair is organized by Rob Graham and Barry Drake. The Hong Kong Fair aims to develop a more intimate sense of 'family' and connectivity than the larger Fairs. To this end the number of schools attending the Fair will remain capped at around 40 of the very best institutions invited from the region and is expected to attract a substantial number of candidates.

The Hong Kong Fair, which is fully supported by the Association of Chinese and Mongolian International Schools, is the the only one of its kind run by Search Associates in that it specialize in vacancies in one particular region: China-Hong Kong-Taiwan. The fair is, therefore, designed for top teachers from around the world who are looking for positions in highly regarded international schools in this region.
